Integrity HTML5 Seed for Web Applications

Styling Guidelines and Rules

This page encapsulates corporate standards, best practices, and mandates for the front end development and production of custom applications. The styles, rules, and standards put forth by this document are to be followed in order to create a cohesive, intuitive, accessible, and friendly platform for all users. Should any questions arise from this document, please contact the NexGen department.

Colors ⌃

CSS Variable	HEX	RGB	CMYK	Swatch
var(--integrity-gold-primary)	#cc9700	203, 151, 0	0%, 26%, 100%, 20%	
var(--integrity-gold-secondary)	#b68700	182, 135, 0	0%, 26%, 100%, 29%	
var(--integrity-grey-primary)	#898b8a	137, 139, 138	1%, 0%, 1%, 45%	
var(--integrity-grey-secondary)	#727372	114, 115, 114	1%, 0%, 1%, 55%	
var(--integrity-success-primary)	#2ecc71	46, 204, 113	77%, 0%, 45%, 20%

Basic Typography ⌃

Example	Font Family	HTML Tag	Size	Weight
H1 Heading	Open Sans	h1	30px	100
H2 Heading	Open Sans	h2	24px	100
H3 Heading	Open Sans	h3	16px	600
H4 Heading	Open Sans	h4	14px	600
H5 Heading	Open Sans	h5	14px	600
H6 Heading	Open Sans	h6	10px	100
Paragraph (Body)	Open Sans	p	13px	400
code	Menlo	code	90%	400

All standard Boostrap 4 text utilities, typographies, and textual utility classes are fully supported and can be found here.

Colored Buttons ^ 🔧 ✖

Use any of the available button classes to create styled buttons.

Normal buttons

| Default | Primary | Success | Info | Warning | Danger | Link |

Button Size Variants ^ 🔧 ✖

Use `.btn-lg`, `.btn-sm`, or `.btn-xs` classes for button size variants.

Button Sizes

Large button	Large button
Default button	Default button
Small button	Small button
Mini button	Mini button

Outline and Block Buttons ^ 🔧 ✖

Create block level buttons or outlined buttons by adding `.btn-block` or `.btn-outline`.

Outlined Buttons

| Default | Primary | Success | Info | Warning | Danger | Link |

Block Buttons

| Primary |

3D Buttons ^ 🔧 ✖

Use the `.dim` class to create 3D buttons.

3D Buttons

Button Dropdowns ^ 🔧 ✖

Dropdown buttons are avalible with any color and any size.

Dropdowns

| Action | Action | Action ▾ |
| Action | Action | Action ▾ |
| Action | Action | Action ▾ |

Grouped Buttons

Grouped buttons are available with the `.btn-group` class used as a wrapper around buttons to group.
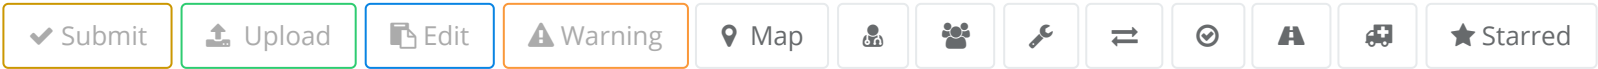

Button Group

| Left | Middle | Right |

| ‹ | 1 | 2 | 3 | 4 | › |

Icon Buttons

Icons can be added to buttons with standard Font Awesome icons within the `button` tag.

Commom Icon Buttons

| ✔ Submit | ⬆ Upload | 🗐 Edit | ⚠ Warning | 📍 Map | 👤 | 👥 | 🔧 | ⇄ | ✅ | Ⓐ | 🚚 | ★ Starred |

Toggle buttons Variations

Button groups can behave as radio, switch, or toggle options. Wrap buttons in a div with `data-toggle="buttons-checkbox"` and the `btn-group` class.
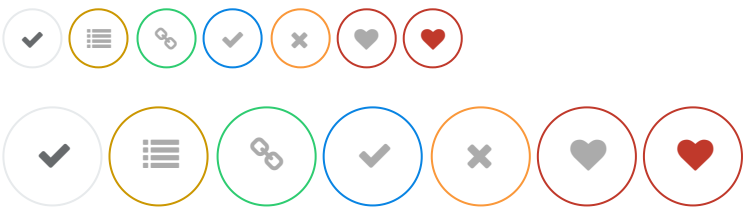

| Single Toggle | Single Toggle | **B** Bold | U̲ Underline | *I* Italic |

Circle Icon Buttons

Add `.btn-circle` to style circle buttons.

Circle buttons

Rounded Buttons

Add `.btn-rounded` class to round buttons.

Button Group

| Default | Primary | Success | Info | Warning | Danger | Danger |
